

Unlock the power of your learning data and prove your impact

KINEO ANALYTICS FOR LEARNING PLATFORMS

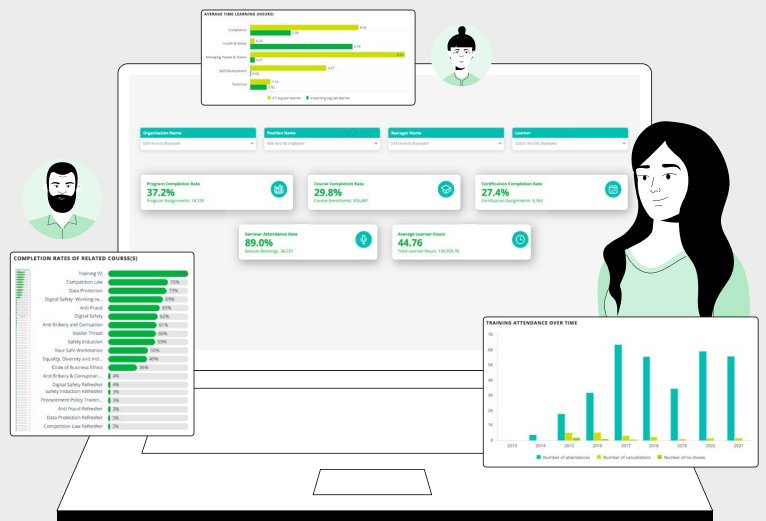

Your learning and development landscape is full of rich, valuable data. The real challenge, however, is deciphering this wealth of information effectively. Spread across various platforms, the sheer volume of raw data often overwhelms teams, making it difficult to extract meaningful insights for better decision-making.

But cracking this code is easier than you might think. Introducing Kineo Analytics – your key to effortlessly unlocking the power of data-driven learning. Transform your scattered learning data into rich insights that empower L&D teams. Kineo Analytics provides insights that transform complex data into actionable intelligence, enhancing not just learning outcomes but the overall strategic development of your organisation's talent.

From complexity to clarity

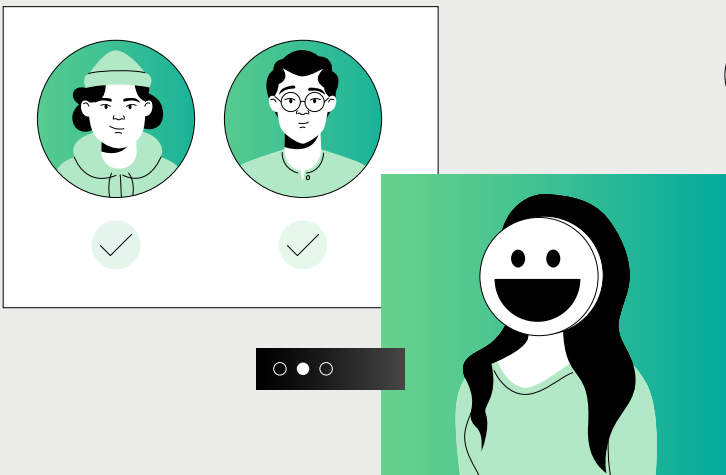

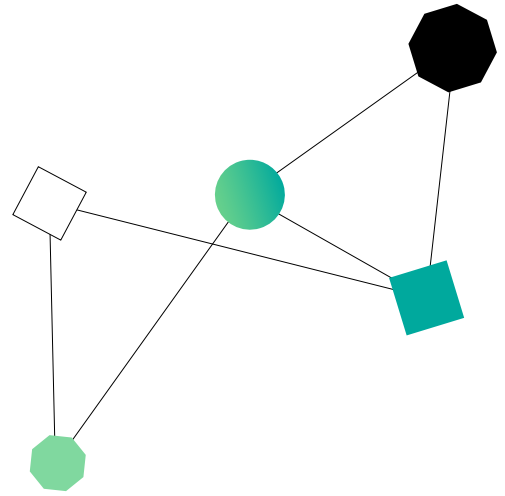

Kineo Analytics seamlessly collects, visualises, and interprets your learning data within your Talent experience platform. Track learning progress, optimise programs, and make informed decisions with our all-in-one solution, integrated into Kineo's Managed services at no extra cost.

3 approaches to data: Concur compliance

Enhance workforce compliance and build a resilient workforce using Kineo Analytics. Our sophisticated tools not only identify compliance trends but also provide a detailed analysis of time-to-competence and skill gaps, empowering you to build a more robust and compliant talent pool.

Experiences that build an engaged workforce

Revolutionise learning engagement with actionable insights into learner behaviours. Craft personalised learning journeys that resonate with individual learning styles, driving higher engagement and retention and ultimately a more knowledgeable, and effective workforce.

Reimagine skills development

Ensure that your talent development is not just reactive, but a strategic asset fostering a culture of continuous learning and agility. Gain visibility into your employees' skill levels and development opportunities and customise training to meet specific needs and strategies.

Real-time learning analytics at your fingertips

Adapt in real-time with live dashboards integrated into your Platform. Access 5 always-on dashboards that visualise your data into easy-to-understand learning gold, empowering a dynamic approach to your L&LD strategy.

Program completion rate

Track completion rates over time to adapt learning paths with learner preferences, optimising content strategy for optimal learning outcomes.

Course completion rate

Get insights into course effectiveness and trends, helping you adjust content in alignment with strategic business objectives.

Certification completion rate

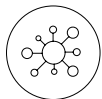

Get a competitive edge with certification insights and track progress to ensure your workforce remains ahead of industry standards and requirements.

Seminar attendance rate

Shed light on the success of your seminars and utilise these insights to improve content relevance and delivery, ensuring high engagement and effective knowledge transfer.

Time spent in learning

Measure and understand the time invested in learning. Leverage data to drive learning initiatives that engage and contribute to professional growth.

Get more with Premium Analytics

Elevate your data-driven learning journey with Kineo Analytics Premium—a tailored service designed to align precisely with your unique business objectives. Our emphasis on customisation and flexibility ensures you receive analytics solutions that are crafted to meet your specific learning goals and organisational targets.

Benefit from a strategic partnership, not just a tool. Our comprehensive offering includes tailored analytics

workshops, custom dashboard design and implementation, responsive and adaptive development, and a focus on achieving your specific objectives. We empower you with comprehensive training, enabling you to create, publish, and maintain your own dashboards, backed by ongoing support from Kineo experts.
