

# Totara Engage

Share, learn, grow

## Unleash the power of collaborative learning

Break the third wall between learning and work. Unlock the expertise and insight inside your organisation and inspire your workforce with the power of social and collaborative learning, all in the flow of work.

Totara Engage supports your always-on learning culture by elevating your organisation's productivity, quality, and talent retention. Built by Totara and powered by Kineo, Engage removes the barriers across the organisation and injects personalised and collaborative learning experiences that lead to more productive teams and better outcomes.

### Tailored Skills Acquisition

Personalised learning and content aligned with strategic goals.

### Encourage Engagement

Cultivate a collaborative culture that recognises, rewards, and inspires contributions.

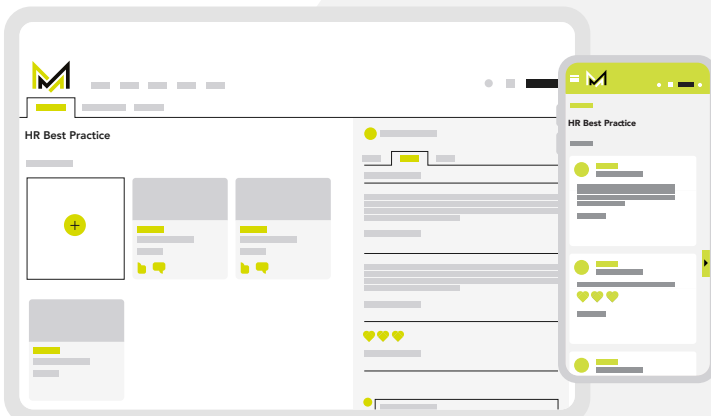

### Flexible Delivery Options

Enhance your learning strategy with social sharing capabilities.

### Data-Driven Insights

Leverage Kineo Analytics for real insights to enhance training outcomes.

## Our Commitment to Your Success

We take pride in being more than a mere technology provider; we are your true learning partner. Our Managed Services focus on supporting our clients to mature their learning paths and build a thriving ecosystem, no matter where they start.

With Kineo, your learning strategy is not merely implemented; it's nurtured, optimised, and empowered to evolve, ensuring impactful and sustainable results.

# Your workforce hub for informal learning pathways & connections

## Curated content playlists

Create content playlists to break down silos, circulate knowledge where it's needed and encourage collaborative learning.

## Collaboration workspaces

Boost skill acquisition, deliver bite-sized knowledge within the workflow, and facilitate team collaboration.

## Seamless Microsoft Teams integration

Streamline complex problem-solving by providing employees with a central digital space, eliminating the need for tool-switching.

## Powerful recommendation engine

Harness people's interests, skills, and prior learning to create a robust learning profile, for personalised recommendations.

## Insightful Surveys

Quickly gain valuable insights by gathering both qualitative and quantitative feedback from your teams

## Interactive and social activities

Likes, ratings, comments, and curation complement formal learning initiatives, nurturing a connected learning culture.

## Accessible personalised playlists:

Quickly find, create, or curate expert knowledge, ranging from articles to podcasts, all tailored to personalise the learning experience.

## Flexible access and sharing settings

Maintain control over content access and privacy rights within your team's workspaces and playlists, with authorisation options for specific individuals or defined job roles.

## User and content engagement reports

Identify and recognise emerging talent, subject matter experts, and thought leaders, while also addressing engagement concerns among individuals.

## One Platform Multiple learning outcomes

Totara Engage combines seamlessly with Learn and Perform to power the Talent Experience Platform, unlocking your talent's full potential.
